THE COVER

Phase III greets the rising sun in this artist's conception.

Contents

Articles

- 5 **The AMSAT Phase III Satellite** *By Joe Kasser, G3ZCZ*
Countdown to a new era in amateur satellite communications. Here are the latest and most authoritative details of this exciting project.
- 15 **Radio Transmissions from Outer Space** *By Gregory Roberts, ZS1BI*
Point your antennas skyward and join ZS1BI and the many others who comb the satellite frequencies for their own style of rare DX!
- 20 **It's All in a Night's Work** *By Vern "Rip" Riportella, WA2LQQ*
A morning-after tale tells what might happen once Phase III data exchange becomes commonplace.
- 24 **70-Cm Satellite Antenna Techniques** *By Dick Jansson, WD4FAB*
Turn on to some interesting ideas for your satellite antenna!
- 31 **AMSAT Area Coordinators**
Looking for an answer to a question? Want to know what's happening with AMSAT? Check with your nearest volunteer area coordinator.

HELP!

YES, WE NEED YOUR HELP...

To support the operation of the satellites you enjoy.

To develop and build new and innovative satellites
for your use.

To work for the preservation of the amateur satellite
frequencies that you use.

To disseminate the amateur satellite information
that you need.

To provide Amateur Radio, your hobby, with its
only new frontier. Its future.

Won't you help us? Your tax deductible contributions
will do all this.

AMSAT, P. O. Box 27, Washington, DC 20044

Yes! I want to help. Enclosed is my contribution of
